**Extended Panel Offer Note:** Additional cost and lead times apply for Mini-V-Beam, Span-Lok hp, Prestige Series 12, and HR-36.

**Metallic Coatings Note:** These colors are subject to an up charge. Minor differences in both color and appearance are normal and to be expected with metallic coatings, as it is virtually impossible to match one metallic coating to another. Due to the coil application process, striations and longitudinal patterning may also show on these products. To minimize the possible visual effects of the normal minor differences in paint and its application, an entire job should be painted at one time. Additionally, fabricated panels, flat sheets, and flashings should be orientated in the same direction for installation.

**Note:** Color swatches are for reference only and are limited by printing process and viewing conditions. Actual color samples are available upon request. Please contact your HCI representative.

\*MultiLok-24 available in all Kynar 500 colors, additional costs and lead time apply.
